

Waterproof/Sealing Material

[Waterproofing Rubber Sheet Under Roof Tile GRA-80, GRA-100/GR](#)
[metal/tile] Roofing (built-up roofing material).

[SEAL-SAVER SA-612](#)

Waterproof sealing material around apertural area.

[Waterproofing Tape Under Roof GA](#)

Waterproofing tape under roof for temporary use.

[EPT SEALER EE-1010](#)

Sealing material for end rail.

[High-performance Sealing Material EPT SEALER EE-1040](#)

Sealing material for roof tile (ridge, verge, valley).

[Waterproofing Tape No.693/692](#)

Waterproofing/airtight tape (for around joints and apertural area).

[Hyperflash No.695](#)

Waterproof and airproof taping (for various places such as water pipes or windowsill edges).

[EPT SEALER EE-1010](#)

Airproof/waterproof packing between sills and footings.

[Airtight Tape EX-2/LA](#)

Airtight tape.

● Pipe laying in pier

● Base stand

● Around a tank base
(to prevent rain water penetration)

● Outdoor piping

Curing

[Cloth Adhesive Tape for Curing No.7500/No.7500 \(Green\)/No.7500 \(SANGO\)](#)

Three types of cloth adhesive tape for curing, easy to use, and leaves no adhesive residue after peeling.

[No.396 \(Multi-purpose Curing Tape\)](#)

A new type of curing tape suitable for various purposes.

[Interior Curing Tape Hardly Leaves Adhesive Residue No.395N](#)

Firmly adheres with almost no adhesive residue. Can be torn off quickly and neatly!

Soundproofing

[LEGETOLEX D-300N](#)

Damping material for rainfall noise.

Fixing

[Double-Coated Adhesive Tape No.525](#)

Sealing material for metal roof and seam part (standing seam roofing).

[Double-Coated Adhesive Tape No.523](#)

Double-coated adhesive tape for fixing of carpet.

[Double-Coated Adhesive Tape PF-370](#)

Tape for temporary fixing of interior decorative sheet.

Safety

[Line Indication Tape E Series](#)

An ecological indoor marking tape which contains no lead or PVC.

[Striped Warning Tape, Type II](#)

Easy warning display at hazardous areas.

[Line Indication Tape for Rough Surfaces](#)

For indoor line markings on rough surfaces.

[Striped Warning Tape, Type III](#)

Easy warning display of hazardous areas.

[Anti-skid Tapes AS-117](#)

Polyester substrate nonskid tape for flat and slippery surfaces. Prevents accidents on stairs, slopes, and other hazardous sites.

Anticorrosion

[NITOHULLMAC XG Series, Oxidative Polymerization Type Anticorrosion Tape for Outdoor Use](#)

"Anticorrosion paint that can be stuck on". Anticorrosion tape for outdoor use that perfectly adheres to complicated shapes.

[Petrolatum Anticorrosion Tape No.59 Series](#)

For antirust/anticorrosion of irregular shapes. Petrolatum anticorrosion tape perfectly sticks to any shape.

Protection

[Vinyl Adhesive Tape for Wire Harness](#)

For protecting and bundling wire harnesses. Environment-friendly vinyl tape with no lead compound.

[Vinyl Tape for Electrical Insulation No.21N/No.21](#)

Environment-friendly, lead-free type vinyl tape for electrical insulation.

[Reflective Striped Warning Buffer](#)

Reflective foam bonded type.

[Anti-skid Tapes AS-127](#)

Aluminum-foil substrate nonskid tape for lumpy surfaces.

[Neo-striped Warning Foam](#)

Foam bonded type.

[Striped Warning Pipe](#)

Cushioning cover for pipes

[Anticorrosion Tape No.55](#)

Self-fusing type anticorrosion tape widely used for prevention of corrosion and protection of pipeline.

[Anticorrosion Vinyl Tape No.51](#)

Easy-to-wind vinyl tape for anticorrosion and protection.

[Vinyl Tape for Air-conditioner Pipework No.240R](#)

High-grade vinyl tape widely used for covering and protecting exposed pipes.

[Vinyl Tape for Branch Tying No.21 EXTRA WIDE](#)

Environment-friendly, lead-free vinyl tape for branch tying.
